[Intro]
[Verse 1]
I pulled into Nazareth, was feelin' bout half past dead

                                                                                                                     F#
                                                                                                                                   Em alt
I just need some place where I can lay my head
                                                                                                                  x \times x \times x
'hey mister, can you tell me where a man might find a bed'
                                                                                                                                 00
                                                                                                         Ø
He just grinned and shook my hand, 'no' was all he said.
                                                                                                     80

[Verse 2]
I picked up my bag, I went lookin' for a place to hide;
When I saw 'ol Carmen and the devil walkin' side by side
I said 'hey Carmen, come on, let's go downtown'
She said 'I gotta go, but my friend can stick around'
   [Chorus]
Go down, Miss Moses, there's nothin' you can say
It's just old Luke, and Luke's waitin' on a judgement day
Well, Luke, my friend, what about young Anna Lee
He said, 'do me a favor, son, won't ya stay and keep Anna Lee company'.
   [Chorus]
[Verse 3]
                                                                          [Verse 4]
Crazy Chester followed me, and he caught me in the fog.
                                                                          Catch a cannon ball now, take me down the line
He said, 'I will fix your rack, if you'll take Jack, my dog.'
                                                                          By bag is sinkin' low and I do believe it's time
I said, 'wait a minute Chester, you know I'm a peaceful man'
                                                                          To get back to miss Annie, you know she's the only one
                                                                                          Bm
He said, 'that's okay, boy, won't you feed him when you can.'
                                                                          Who sent me here with her regards for everyone
