```
Notes: ( ) = To be played in same span of time as two chords
Key: C Capo: 4th Fret
[Into]
                                                                 [Verse 3]
C - G
(C-G-F)
                                                                 No, it ain't no use in callin' out my name, gal
C-G-C
                                                                    Like you never done before
[Verse 1]
                                                                 And it ain't no use in callin' out my name, gal
Well, it ain't no use to sit and wonder why, babe
                                                                    I can't hear you anymore
  If'n you don't know by now
                                                                 I'm a-thinkin' and a-wond'rin' walkin' down the road
An' it ain't no use to sit and wonder why, babe
                                                                 I once loved a woman, a child I am told
  It'll never do somehow
                                                                 I gave her my heart but she wanted my soul
When your rooster crows at the break of dawn
                                                                 Don't think twice, it's all right
  Look out your window and I'll be gone
                      Am
                                                                 C G Am F C
You're the reason I'm a-trav'lin' on
But don't think twice, it's all right
                                                                 [Verse 4]
                                                                 So loooooong, honey babe
C G Am F C
                                                                  Where I'm bound, I can't tell
[Verse 2]
                                                                 But goodbye's too good a word, babe
And it ain't no use in a-turnin' on your light, babe
                                                                    So I'll just say fare thee well
The light I never knowed
                                                                 I ain't sayin' you treated me unkind
An' it ain't no use in turnin' on your light, babe
                                                                 You could have done better but I don't mind
  I'm on the dark side of the road
                                                                  You just kinda wasted my precious time
But I wish there was somethin' you would do or say
                                                                 Don't think twice, it's all right
To try and make me change my mind and stay
                                                                 [Outro]
We never did too much talkin' anyway
                                                                 C-G-Am-F-C
                                                                 C - G - Am - D7 - G - G7
Don't think twice, it's all right
                                                                 C - C7 - F - D7
C-G-Am-F-C
                                                                  C - G
                                                                 (C-G-F)
                                                                  C-G-C
```
