[Verse 1]
Low down
             once again
Well I'm strugglin' now
To get by my friend.
It's keepin' me up Real late at night
I just can't settle down
                                                                Low down
My honky-tonk life.
    [Chorus 1]
    Driftin' round bout half past four
    With the blues on my back and a bottle on the floor
    Drinkin' until I think I'm gonna fall down
    Cause my sweet little baby had to kick meeeeeeeee
                                                                    [Chorus 1]
