[Verse 3]
       A5
                                      D
No one told her
                           she could sing
                  B5
                                        A5
They turned their backs
                           and she was gone
                           G5
                  A5
But a ghost light shines
                           on rusty strings
          B5
                                  G5
                           about Arkansas
